

# THINK MODERN BUSINESS

## ABOUT US

Accent on Training are a business skills and English language solutions provider. Working with each client to understand their specific organisational goals, identify skills gaps and design a learning development programme that meets their timeline and budget.

**Consultation** – Identify skills gaps and learning goals.

**Design** – Creating customised programmes.

**Delivery** – Furnish your course when you need it and how you need it.

**Evaluation** – Evaluate employee progress and engagement, and training impact.

## OUR SOLUTIONS

### Professional Communication Skills

We offer a comprehensive range of courses designed to enhance both spoken and written communication in professional settings. Participants develop the ability to express ideas clearly, communicate with confidence, and adapt their language to different business situations.

### English Programmes

Choose from a variety of immersive courses designed to build English proficiency across all levels. Our programs focus on practical, real-world communication, helping participants develop confidence, accuracy, and fluency.
